

Aisha Sethi

Accountant | Helping teams scale

Professional with 11.0+ years of experience. I've spent my career in marketing manager roles, mostly focused on driving outcomes through process, people, and customer relationships. Lately I've been curious about how AI tools could augment my work — I've experimented with ChatGPT and a few other tools for productivity and content creation, and I think the space is exciting. Open to roles where I can apply my domain expertise alongside emerging AI capabilities.

Experience:

Accountant at Stark Industries

2022-02-17 to None

Business analyst at a consulting firm, working primarily with retail and CPG clients. Conducted business diagnostics, process re-engineering work, and digital transformation strategy projects. Strong on stakeholder management, structured problem-solving, and the typical consulting toolkit (slide-craft, Excel modeling, execution, communication). Recent project work involved AI-strategy advisory but my own technical depth in AI is limited.

HR Manager at Wipro

2018-05-25 to 2022-02-03

Senior accounting role at a mid-sized company — month-end close, financial reporting, statutory compliance (GAAP / Ind-AS), and tax filings. Owned the GL, fixed-asset register, and the audit-readiness function. Managed a team of 3 staff accountants. Built strong process discipline around the close cycle, reducing close time from 10 days to 7 over the last two years.

HR Manager at Initech

2016-06-04 to 2018-05-25

Business analyst at a consulting firm, working primarily with retail and CPG clients. Conducted business diagnostics, process re-engineering work, and digital transformation strategy projects. Strong on stakeholder management, structured problem-solving, and the typical consulting toolkit (slide-craft, Excel modeling, execution, communication). Recent project work involved AI-strategy advisory but my own technical depth in AI is limited.

Accountant at TCS

2015-09-08 to 2016-06-04

Customer support team lead at a SaaS product. Managed a team of 8 support agents handling tier-1 and tier-2 tickets; owned the escalation process to engineering and the customer-feedback loop to product. Built out support knowledge base and the agent training program. Strong on the people-management side and the process side; lighter on technical depth beyond product expertise.

Skills:

SQL, PowerPoint, Photoshop, Tailwind, Apache Flink, Image Classification
