

Amit Shah

Mechanical Engineer | Driving business outcomes

Professional with 11.0+ years of experience. My professional background is in marketing manager — I've led and led teams, owned KPIs, and driven business outcomes in this domain. Lately I've been curious about how AI tools could augment my work — I've experimented with ChatGPT and a few other tools for productivity and content creation, and I think the space is exciting. Open to roles where I can apply my domain expertise alongside emerging AI capabilities.

Experience:

Mechanical Engineer at Dunder Mifflin

2022-10-15 to None

Business analyst at a consulting firm, working primarily with retail and CPG clients. Conducted business diagnostics, process re-engineering work, and digital transformation strategy projects. Strong on stakeholder management, structured problem-solving, and the typical consulting toolkit (slide-craft, Excel modeling, executive communication). Recent project work involved AI-strategy advisory but my own technical depth in AI is limited.

Content Writer at Wipro

2021-02-22 to 2022-10-15

Marketing leadership role at a B2B SaaS company. Owned the demand-generation function — content marketing, paid acquisition, SEO, email nurture. Built and managed a team of 5 across content, performance marketing, and marketing operations. Worked closely with sales on lead-quality definitions and the SDR-handoff process. Recent focus has been on account-based marketing for our enterprise segment.

Customer Support at Stark Industries

2017-02-13 to 2021-02-22

Mechanical engineering design role at a hardware-product company. Led the design of two product subsystems through full lifecycle: concept, DFM/DFMA review, prototype, production tooling. Comfortable with CAD (SolidWorks, Creo), FEA (ANSYS), and the typical hardware-development cadence. Worked closely with manufacturing partners on production scale-up.

Project Manager at Acme Corp

2015-08-23 to 2017-02-13

Enterprise sales of cloud software solutions into the mid-market segment. Carried a \$1.8M ARR quota and consistently delivered against it across the last three years. Owned the full sales cycle: prospecting, discovery, technical evaluation (with SE support), commercial negotiation, and close. Strong on consultative selling for technical buyers; comfortable engaging with both engineering and finance stakeholders.

Skills:

Snowflake, gRPC, JavaScript, OpenCV, Go, PowerPoint
