Mechanical Engineer | Helping teams scale

Professional with 11.8+ years of experience. I've spent my career in marketing manager roles, mostly focusing on driving outcomes through process, people, and customer relationships. Lately I've been curious about how AI tools could augment my work — I've experimented with ChatGPT and a few other tools for productivity and content creation, and I think the space is exciting. Open to roles where I can apply my domain expertise alongside emerging AI capabilities.
