Project Manager | 6.5+ yrs experience

Professional with 6.5+ years of experience. I've spent my career in marketing manager roles, mostly focus driving outcomes through process, people, and customer relationships. Lately I've been curious about how tools could augment my work — I've experimented with ChatGPT and a few other tools for productivity and content creation, and I think the space is exciting. Open to roles where I can apply my domain expertise alongside emerging AI capabilities.

Experience:

Project Manager at Wayne Enterprises

2022-10-15 to None

Business analyst at a consulting firm, working primarily with retail and CPG clients. Conducted business diagnostics, process re-engineering work, and digital transformation strategy projects. Strong on stakeholder management, structured problem-solving, and the typical consulting toolkit (slide-craft, Excel modeling, external communication). Recent project work involved AI-strategy advisory but my own technical depth in AI is limited.

Marketing Manager at Wayne Enterprises

2020-08-19 to 2022-10-08

Mechanical engineering design role at a hardware-product company. Led the design of two product subsystems through full lifecycle: concept, DFM/DFMA review, prototype, production tooling. Comfortable with CAD (SolidWorks, Creo), FEA (ANSYS), and the typical hardware-development cadence. Worked closely with manufacturing partners on production scale-up.

Business Analyst at Pied Piper

2020-01-15 to 2020-08-12

Brand design and creative direction at a consumer-products company. Owned brand identity (logo, visual system, typography), packaging design, and digital creative across web and social. Led the recent rebrand and managed a small external agency for production work. Comfortable across the Adobe suite, Figma, and the production side of brand and packaging design.

Skills:

Figma, GraphQL, Six Sigma, Scrum, YOLO, gRPC, AWS, Azure
