Mechanical Engineer | 7.8+ yrs experience

Professional with 7.8+ years of experience. I've spent my career in marketing manager roles, mostly focus driving outcomes through process, people, and customer relationships. Lately I've been curious about how tools could augment my work — I've experimented with ChatGPT and a few other tools for productivity and content creation, and I think the space is exciting. Open to roles where I can apply my domain expertise alongside emerging AI capabilities.
