

Aanya Malhotra

Accountant | Helping teams scale

Professional with 5.3+ years of experience. I'm a marketing manager with substantial experience in cross-functional collaboration, stakeholder management, and execution. Lately I've been curious about how tools could augment my work — I've experimented with ChatGPT and a few other tools for productivity and content creation, and I think the space is exciting. Open to roles where I can apply my domain expertise alongside emerging AI capabilities.

Experience:

Accountant at Infosys

2024-12-03 to None

Enterprise sales of cloud software solutions into the mid-market segment. Carried a \$1.8M ARR quota and consistently delivered against it across the last three years. Owned the full sales cycle: prospecting, discovery, technical evaluation (with SE support), commercial negotiation, and close. Strong on consultative selling for technical buyers; comfortable engaging with both engineering and finance stakeholders.

Mechanical Engineer at TCS

2021-09-06 to 2024-11-19

Customer support team lead at a SaaS product. Managed a team of 8 support agents handling tier-1 and tier-2 tickets; owned the escalation process to engineering and the customer-feedback loop to product. Built out support knowledge base and the agent training program. Strong on the people-management side and the process side; lighter on technical depth beyond product expertise.

Operations Manager at Globex Inc

2021-02-08 to 2021-08-07

Mechanical engineering design role at a hardware-product company. Led the design of two product subsystems through full lifecycle: concept, DFM/DFMA review, prototype, production tooling. Comfortable with CAD (SolidWorks, Creo), FEA (ANSYS), and the typical hardware-development cadence. Worked closely with manufacturing partners on production scale-up.

Skills:

Node.js, Figma, Data Pipelines, Go, Photoshop, Kubeflow, Accounting, SQL
