Marketing Manager | Driving business outcomes

Professional with 10.0+ years of experience. I've spent my career in marketing manager roles, mostly focused on driving outcomes through process, people, and customer relationships. Lately I've been curious about how AI tools could augment my work — I've experimented with ChatGPT and a few other tools for productivity and content creation, and I think the space is exciting. Open to roles where I can apply my domain expertise alongside emerging AI capabilities.

Owned the GL, fixed-asset register, and the audit-readiness function. Managed a team of 3 staff accountants. Operations management role at a logistics company. Owned daily fulfillment operations across 3 warehouses, managing a team of 80 across receiving, picking, packing, and outbound. Built and tracked the operational metrics (on-time fulfillment, accuracy, cost per order) and led the continuous improvement initiatives that drove a 20% productivity gain over 18 months.
