

Yash Agarwal

Customer Support | 1.1+ yrs experience

Professional with 1.1+ years of experience. I've spent my career in marketing manager roles, mostly focus driving outcomes through process, people, and customer relationships. Lately I've been curious about how tools could augment my work — I've experimented with ChatGPT and a few other tools for productivity and content creation, and I think the space is exciting. Open to roles where I can apply my domain expertise alongside emerging AI capabilities.

Experience:

Customer Support at TCS

2025-05-02 to None

Business analyst at a consulting firm, working primarily with retail and CPG clients. Conducted business diagnostics, process re-engineering work, and digital transformation strategy projects. Strong on stakeholder management, structured problem-solving, and the typical consulting toolkit (slide-craft, Excel modeling, ex communication). Recent project work involved AI-strategy advisory but my own technical depth in AI is limited.

Skills:

Angular, SEO, Excel, Accounting, Kubernetes, Databricks
