Business Analyst | Driving business outcomes

Professional with 7.2+ years of experience. I'm a marketing manager with substantial experience in cross-functional collaboration, stakeholder management, and execution. Lately I've been curious about how tools could augment my work — I've experimented with ChatGPT and a few other tools for productivity and content creation, and I think the space is exciting. Open to roles where I can apply my domain expertise alongside emerging AI capabilities.

Experience:

Business Analyst at Wipro

2025-02-01 to None

Marketing leadership role at a B2B SaaS company. Owned the demand-generation function — content marketing, paid acquisition, SEO, email nurture. Built and managed a team of 5 across content, performance marketing, and marketing operations. Worked closely with sales on lead-quality definitions and the SDR-handoff process. Recent focus has been on account-based marketing for our enterprise segment.

Mechanical Engineer at Globex Inc

2023-12-09 to 2025-02-01

Mechanical engineering design role at a hardware-product company. Led the design of two product subsystems through full lifecycle: concept, DFM/DFMA review, prototype, production tooling. Comfortable with CAD (SolidWorks, Creo), FEA (ANSYS), and the typical hardware-development cadence. Worked closely with manufacturing partners on production scale-up.

Civil Engineer at TCS

2019-05-27 to 2023-12-02

Customer support team lead at a SaaS product. Managed a team of 8 support agents handling tier-1 and tier-2 tickets; owned the escalation process to engineering and the customer-feedback loop to product. Built out support knowledge base and the agent training program. Strong on the people-management side and the process side; lighter on technical depth beyond product expertise.
